

## **25TH EDUCATIO INTERNATIONAL EDUCATION EXPO**

### **INFORMATION BROCHURE FOR EXHIBITORS**

**EDUCATIO International Education Expo** is the most significant and prestigious annual professional event for education in Hungary organized every year since 2000. Hungarian secondary and higher education, educational equipment production, schoolbook publishing, professional education, language teaching, as well as quality assurance are represented by hundreds of exhibitors including almost every Hungarian university and college. In addition to the exhibition pavilions, **visitors have the chance to become acquainted with the present and future of Hungarian education at professional lectures and presentations.**

Organizing the 25th EDUCATIO Expo we aim to provide an opportunity for **even more Hungarian and foreign exhibitors** to introduce themselves. All public and higher education institutions, organizations, and companies that are related to any field of education are welcome, including foreign educational institutions and companies. We make every effort to create a 'marketplace' on the fair as well: we aim to boost the participation of educational decision-makers through organizing conferences, professional programs.

When setting up the requirements for participating in the exhibition, we were aiming to create a surface that makes the process of reaching out to those interested in higher education services cost-efficient for all parties.

The next EDUCATIO Expo will be organized again by the Conference of Student Councils (HÖÖK), with the consent of the event's rightsholder, the Hungarian Educational Authority. This helps us to reach our main target group, the students even more successfully while holding the fair's quality on the highest level which our exhibitors have already accustomed. Our vision for the upcoming years is to become the most significant educational event in the Central- European region.

## **EDUCATIO**

The **25th EDUCATIO Expo** is organized **between January 9-11, 2025 in the HUNGEXPO Budapest Fair Center's Hall 'A'**, with more than 20,000 m<sup>2</sup> of floor space. Based on the success of previous years **we expect close to 200 exhibitors and 60,000 visitors** — secondary school students, their parents, teachers, and institution leaders — **during the three days** of the exhibition. **The event is free for all visitors and is open between 10:00-17:00 every day.**

## **EXHIBITION TOPICS**

To enhance the arrangement of the Expo the exhibitors are organized in groups based on their activities. We make efforts to place exhibitors with similar activities into the same section. Based on the experience of previous years apart from the higher education institutions, we determined other sections connected to education sectors, which you can choose from on our online ordering platforms depending on the activities of your institution.

These exhibition topics will appear partly or completely in the Expo Catalogue, as well as on the official website. The Organizer reserve the right to reclassify the Exhibitors in case they chose more than one category.
